	APPROVAL OF STATE ENGINEER
limi	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following tations and conditions:
	This permit is issued subject to existing rights and is further subject to
	ocation if and when water can be furnished by an entity such as a water district
	a municipality engaged in furnishing water. A totalizing meter must be installed maintained in the discharge pipeline near the point of diversion and accurate
mea	surements must be kept of water placed to beneficial use. The totalizing meter
	t be installed before any use of water begins, or before the Proof of Completion Work is filed. It is understood that this right must allow for a reasonable
	vering of the static water level. The well shall be equipped with a 2-inch opening
	measuring depth to water. If the well is flowing, a valve must be installed and
	ntained to prevent waste. This source is located within an area designated by the tee Engineer pursuant to NRS 534.030. The State retains the right to regulate the
	of the water herein granted at any and all times.
pub	This Permit does not extend the permittee the right of ingress and egress on clic, private or corporate lands.
_	The issuance of this permit does not waive the requirements that the permit der obtain other permits from State, Federal and local agencies.
The	amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to
exce	cedcubic feet per second , but not to exceed 1.46
	lion gallons annually.
	k must be prosecuted with reasonable diligence and be completed on or before February 26, 1990
	of of completion of work shall be filed on or before March 26, 1990
	lication of water to beneficial use shall be made on or before February 26, 1993
	of of the application of water to beneficial use shall be filed on or before
	o in support of proof of beneficial use shall be filed on or before
Com	pletion of work filed
Proo	f of beneficial use filed
